Sensiva® PA 20	(3)	PHENETHYL ALCOHOL, ETHYLHEXYL GLYCERIN	1.00
Fragrance Okadi Suncare	(4)	PARFUM (FRAGRANCE)	0.10
<b>C</b>			
Sodium chloride, coarse		SODIUM CHLORIDE	74.00

### Procedure:

Mix the ingredients of phase B in a beaker. Add phase A and mix again. Then add phase C and mix strongly until the bulk is homogeneous. Pour the mixture into suitable packaging.

### Notes:

Burnt Sienna is a salt body scrub with a warm red tone, reminiscent of the burning sand of the desert. Small amounts of the pearl effect pigments Colorona® Copper and Colorona® Sienna create this beautiful red shade. A slightly shimmering effect is highlighting this formulation, which can be applied on the body during shower and rinsed with water for a soft and exfoliated skin.  
Stability: 3 months at 40°C, FTC (-5°C to 40°C), 5°C, RT and 1 week 50°C ongoing
